

Magnetic Particle Testing / PICO-MAG® Portable Yoke Type

MY-2

Will content you at the surface Inspection.

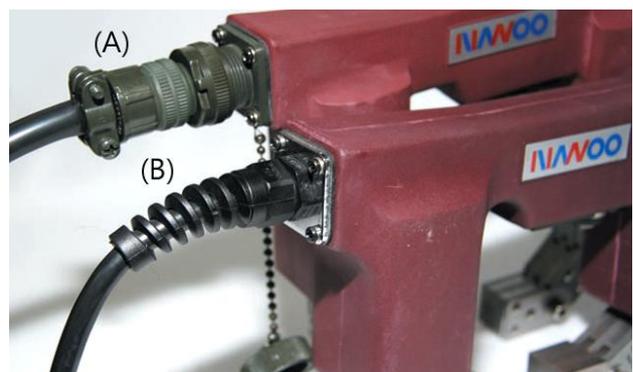

Will rugged rubber, molded housing and its excellent durability.

- AC and makes a powerful magnetic field
- Small, Lightweight and easily portable
- Excellent durability with special rubber molding
- Can achieve test alone and it's the most economical test equipment
- Suitable for structures inspection of various form with 2 gear magnetic poles.
- Low in danger of electric shock at wet inspection with waterproof micro switch.

Model MY-2 type keeps a powerful magnetic field and is small, light highperformance instrument.

It generates little heat although it is used for many long hours.

And especially its external shape is molded with special rubber, so it is good-shape and its durability excels.

(A) Cable connector type (B) Intergrated Cable type

I Standard Configuration

- Main Yoke MY-2 : 1 set
- Power Cables 4m : 1 ea
- 2 Universal Poles : 1 pair
- Plastic Carrying Case : 1 ea
- Manual & Certification

I Specifications

Model	MY-2	MY-2W
Power	220VAC/ 50-60Hz	110VAC/ 50-60Hz
Related Current	2.6 amps	3.8 amps
Distance Between	Center : 135mm	
Magnetic Core Center	Universal : 25-185mm	
Lifting power	Max. 7Kg	
Magnetizing Current	AC only	
Cable Length	4.0m	
Dimensions	L220 x D46 x H155 mm	
Weight(standard)	2.2Kg	2.4Kg
Weight(2 Universal Poles)	2.4Kg	2.6Kg
